

## Supplying Greater Manchester's Future

### CASE STUDY

## Marple Community Hub, Stockport

Twin DHW Cylinder Supply | Greater Manchester | Willmott Dixon / A&B Engineering

### PROJECT OVERVIEW

The £20m Marple Community Hub is a landmark development in Marple Memorial Park, Stockport — funded by the Government's Levelling Up Fund and Sport England. Delivered by main contractor Willmott Dixon Construction under a JCT 2016 Design & Build contract, the 3,030m<sup>2</sup> hub will bring together a five-lane swimming pool, a 60-station gym, a modern library, café, and a new home for Marple Clinic — creating a vibrant, inclusive community space supporting healthier lifestyles across Greater Manchester. **Completion: Autumn 2026.**

### PROJECT TEAM

- ▶ **Client:** Stockport Council
- ▶ **Main Contractor:** Willmott Dixon Construction
- ▶ **M&E Contractor:** A&B Engineering
- ▶ **M&E Contact:** Joe Carter, Contract Manager
- ▶ **Project Value:** £20 million
- ▶ **Location:** Marple, Greater Manchester

### OUR SCOPE OF SUPPLY

World Heat Cylinders designed and manufactured **2x 1500L DHW Cylinders** for the Marple Community Hub plant room. Engaged at an early design stage, our team worked closely with Joe Carter (Contract Manager, A&B Engineering) from initial enquiry through to final delivery — ensuring the vessels were specified, built and installed to serve the pool heating and domestic hot water systems, a critical element of the building's low-carbon mechanical strategy.

- ✓ 2x 1500L DHW Cylinders, designed to specification
- ✓ Manufactured at our Manchester facility
- ✓ Delivered to programme, zero delays
- ✓ Early design stage engagement & specification support
- ✓ Supporting Clade natural refrigerant heat pumps
- ✓ Serving pool heating & DHWS across the hub

*"Being based in Greater Manchester, this project is incredibly close to our hearts. Seeing our vessels installed in such a landmark community facility is something the whole team is immensely proud of."*

**Mark Sidebottom — Managing Director, World Heat Cylinders**

Mark Sidebottom (MD), Jonathan Greenwood (National Sales Manager) and Aaron Clark (Commercial Project Lead) visited site to review progress and meet the A&B Engineering team.

*"We have been extremely impressed with World Heat Cylinders' process, lead time and quality of the vessels. A smooth supply experience from start to finish."*

— A&B Engineering, M&E Contractor | Marple Community Hub

### WHY WORLD HEAT CYLINDERS

**Designed & Manufactured in Manchester**  
Proudly local — supporting Greater Manchester's built environment

**Fast Lead Times, Bespoke to Specification**  
Custom-engineered vessels delivered to programme, every time

**Supporting Local Supply Chains**  
Committed to strengthening the Greater Manchester construction ecosystem
